Apress. Paperback. Condition: New. 175 pages. Industrial Problem Solving Simplified provides a roadmap for solving manufacturing problems. Containing numerous examples of actual problems and their solutions in various industrial environments, it is for novice as well as experienced manufacturing owners, managers, quality representatives, consultants, trainers, and procurement professionals. Author Ralph Pawlaks roadmap is a proven system that has been used to eliminate major manufacturing problems in electronics, casting, blow molding, and assembly operations. Whats more, it has been used effectively in the manufacture of toys, juvenile products, chemicals, automotive engines, and innumerable components of many manufacturing facilities and in the U. S. , Canada, China, and Europe. The books insights into problem causes and the methods to solve them once and for all are applicable to most problems in most industries. Pawlak, with decades of experience as manager of manufacturing, quality, and plant engineering for General Motors, Fisher Price, Vibratech, and others, offer tools to solve problems and shows how to use them. Youll learn how to use tools like quality check sheets, flow diagrams, concept sheets, duo diagrams, variation plots, sketches, sum-of-extremes tests, good versus bad comparisons, fractionals with interactions, and many-level checks. Whats more, these are tools anyone can put to good use today. No special knowledge of statistics, or advanced math or engineering, is required. If you can add, subtract, multiply, and divide and use your eyes and ears you can learn to solve industrial problems like a pro. This book will help you: 1. Clarify the conditions that cause problems 2. Define the cause of problems 3. Generate clues as to the causes of problems and their solutions 4. Collect accurate and relevant data 5. Use specific tools to solve problems effectively 6. Establish consistent work processes to ensure problems do not return Industrial Problem Solving Simplified will empower you and your people not just to solve manufacturing problems but...
