Pearson Education (US), United States, 2012. Paperback. Condition: New. New.. Language: English . Brand New Book ***** Print on Demand *****. Paul Brown has done a favor for the TIBCO community and anyone wanting to get into this product set. Architecting TIBCO solutions without knowing the TIBCO architecture fundamentals and having insight to the topics discussed in this book is risky to any organization. I fully recommend this book to anyone involved in designing solutions using the TIBCO ActiveMatrix products. -Nikky Sooriakumar, TIBCO Architect, PruHealth An effective primer for building composite services using TIBCO, this book provides a holistic approach to strategy integrated with implementation details. Architecting Composite Applications and Services with TIBCO (R) shows how to create successful architectures with TIBCO products for both overall solutions and individual services. This guide builds on the basic design patterns and product information presented in the first title in the series,...
