

Pupils: An Eye-Opening Account of Medical Practice Without Standards (Hardback)

By Bernard J Sussman

Bartleby Press, United States, 2003. Hardback. Condition: New. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. In a time when standards are being applied to everything from the manufacture of your car to the management of your investment portfolio, it is hard to imagine that your health and well-being are in the hands of men and women who follow no professional, accepted standards. This book will open your eyes to the risks you take as a patient while your doctors, quite free to act entirely on their individual discretion, administer to your medical and surgical needs. It will open your eyes to how doctors, either through arrogance, carelessness, or indifference, feel they can act with impunity. Dr. Bernard J. Sussman, a professor of neurosurgery, passionately argues that implementing standards for the medical profession will prevent the dire consequences of reckless and negligent medical practices. Such standards will assure patients the high level of medical care which Sussman insists we all deserve.

Reviews

I just began looking over this pdf. It is one of the most amazing pdf i have study. I discovered this book from my dad and i recommended this pdf to understand.

-- **Merritt Kilback II**

Good e book and useful one. I have got read and that i am confident that i will likely to go through once more again later on. It is extremely difficult to leave it before concluding, once you begin to read the book.
