Xulon Press. Paperback. Condition: New. Dimensions: 11.0in. x 8.5in. x 0.3in. It has been predicted by Computer Scientist that within the next twenty years neural interfaces will be designed that will not only increase the power of the humans senses that includes the enhancement of memory and enable one to have a cyberlink - invisible (wireless) communication with others. There will be a tremendous ethical burden placed upon all of humanity to evaluate the comprehensive issues of safety, informed consent, manufacturers and scientific communities global responsibility as well as the future for the implanted being. A time for the reflection of what is the term Doing No Harm really mean to mankind as issues of privacy and autonomy become a focal point of life as well as carcinogenic agents entering the brain. Global Brain Chip and Mesogens by Dr. Hildegard Staninger(r), RIET-1 documents the scientific investigation process of chemical analysis and advanced materials compositions in determining the chemical finger print of a Brain Chip. A first of its kind as it will become the pioneering text on this subject matter. Dr. Hildegard Staninger is an Industrial ToxicologistIH and Doctor of Integrative Medicine. She has authored other books and articles in the applied sciences and engineering, occupational health and safety, and environment as well as the creative arts and educational study guides for occupational certification programs. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
